Our eco philosophy

Designed to be kind on earth in its creation and if ever disposed, kind on earth in its end life. Creating a fully circular low impact product, to be worn daily, built to last and if chosen to be disposed will break down into earth. Every component down to the care label is consciously sourced to minimise the impact on earth's resources in its creation and in its end life.

ECO FACT

Upcycled polyester is made from recycled plastic. By upcycling these items into usable fabrics we are diverting tonnes of plastic waste from landfill.
